Select the check box and Click Manage Licenses.

The screenshot shows the ETAS License-Portal interface. On the left, a navigation menu is visible with the following items: Manage Entitlements, Manage Licenses (highlighted with a red circle and a red arrow), Consolidated Licenses, Logout, and Help. To the right of the menu is a photograph of a man in a purple shirt. Below the menu, the section 'Activatable Line Items' is displayed. It features a toolbar with 'Activate' and 'View Certificate' buttons. Below this is a table with columns: Type, License Model, Total Copies, and Copies. The 'Type' column contains a checked checkbox, which is circled in red with a red arrow pointing to it. Below the table, the text 'No activatable line items with' is visible. At the bottom, another toolbar contains 'Activate' and 'View Certificate' buttons.

Select the check box and click re-host.

The screenshot shows the ETAS License-Portal interface. On the left, a navigation menu is visible with the following items: Manage Entitlements, Manage Licenses (highlighted with a blue bar), Consolidated Licenses, Logout, and Help. To the right of the menu is a photograph of a man in a purple shirt. Below the menu, the section 'Fulfillments' is displayed. It features a toolbar with 'Return', 'Rehost', 'Save to File', and 'Consolidate' buttons. Below this is a table with columns: Type and Fulfillment ID. The 'Type' column contains a checked checkbox, which is circled in red with a red arrow pointing to it. Below the table, the text 'FID_568caa09_12be818896f_283b' is visible. At the bottom, another toolbar contains 'Return', 'Rehost' (highlighted with a red circle and a red arrow), 'Save to File', and 'Consolidate' buttons.

Click Add New Host and enter new Mac id.

Click Verify and Rehost

⚡ If you need to validate the license, click Verify.

Save the .lic file in your INCA PC. Preferably d:\ drive.

Adding license file.

Click Start > All Programs > ETAS > License management > ETAS license Manager.

Browse and select .lic file.
