

ETAS

SDV: from complexity
to clarity – empowering
next-gen architectures

About the event

ETAS Connections is our annual customer and partner gathering. More than just a meeting, the event encourages the exchange of ideas and supports collaboration among 450 key players in the industry. In a setting that values innovation and progress, participants can make meaningful connections, explore potential partnerships, and contribute to shaping the future of mobility.

Highlights at a glance

- Get inspired by keynotes, customer insights, expert panels, and interactive Q&A sessions.
- Explore the Open Space exhibition area – a dynamic hub for live demos, expert insights, and the latest innovations from ETAS and partners.
- Join us for an exclusive networking gathering with great conversations and good food.

Key facts

**October 22,
2025**

**Wagenhallen,
Stuttgart**

Topics

Explore how new E/E architectures are driving the future of mobility.

Discuss software-defined vehicle topics like centralized computing, service-oriented architectures, cybersecurity and functional safety, AI and machine learning applications, open-source platforms, lifecycle management of vehicle software with industry experts.

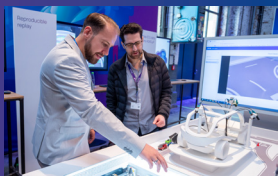

Participants

Network with around 450 on-site participants from all over the automotive industry.

Colleagues of Ampere, AWS, BMW, Bosch, Capgemini, CARIAD, Daimler Trucks, Mercedes-Benz, Continental Automotive, Michelin, Hyundai Motors, Microsoft, Eclipse Foundation, and many more joined us 2024.
